### Other Facilities:

## Top Hospitals in Istanbul Turkey – Best Medical Treatment Centers

- 559 Modern Rooms
- Luxury accommodation
- Personal Concierge
- Video consultations for overseas patients
- Translation services & language interpreters

### Why Pick a Turkish Hospital?

There are three main reasons why Turkey is becoming a hotspot for medical tourism:

1. **Save Some Cash:** Compared to countries like the United States or the United Kingdom, medical treatments in Turkey can cost you 50% to 70% less! This lets you save money without giving up on top-quality care.
2. **High-Tech Care:** Hospitals in Turkey are well-equipped with modern medical technology, so you can be sure you're getting the latest treatments available.
3. **Skilled Doctors Who Speak Your Language:** Many doctors in Turkish hospitals have studied and trained in western countries, so they're highly qualified and can speak English fluently. This makes communication much easier!

## My Verdict

All the hospitals I've mentioned above are top hospitals in Turkey. They offers a unique blend of a relaxing vacation with world-class medical care. From complex surgeries to simple check-ups, you can find it all here. Plus, you'll save money compared to many other countries without compromising on quality.
